Re: Stericycle

Dear Mr. Harrington:

Your letter to Charlie Alutto dated January 29, 2018 has been referred to me for a response.

As we have indicated in the past, Stericycle does not provide the public with details about its individual customers without the consent of those customers. I can tell you, however, that your information on which facilities are Stericycle customers is not entirely current.

As you know, Stericycle prohibits the use of its services to dispose of fetuses and takes appropriate steps to enforce that policy. Stericycle's provision of services to women's health centers does not suggest a violation of that policy. Those centers provide a variety of medical services beyond abortions, and many of those services produce medical waste that Stericycle's policies permit it to handle.

Very truly yours,

Eric S. Mattson
